

## Koi Pond Nuggets

Mazuri® Koi Pond Nuggets offers complete nutrition, with a taste koi can't resist, and ingredients that support beautiful, vibrant coloration. Plus, the food particles float – to encourage fish to come to the surface of your pond, tank, or aquarium so you can enjoy mealtime, too.

### Features and Benefits

- **Complete nutrition** – No supplements needed.
- **Sustainable fish meal source used.**
- **Highly palatable** – Fish will eat it readily.
- **Floating particles** – Fish can be observed eating.

### Feeding Directions

- Feed to koi in ponds as a floating feed.
- Suitable for fish six inches or longer.
- Feed only as much as fish will readily consume.
  - Do not over feed as excess feed will decompose in the water, resulting in poor water quality, which in turn can be harmful to the health of the fish.
- Thoroughly wash feed and water bowls on a regular basis. It is always good practice to wash hands thoroughly after feeding and/or handling animals.
- This diet is not for human consumption.

### Storage Conditions

For best results, reseal the bag between uses or store contents of open paper sack in container with sealing lid. Store in a cool (75°F/24°C or colder), dry (approximately 50% RH) location free from rodents and insects. Do not offer moldy or insect-infested feed to animals as it may result in illness, performance loss or death. Freezing will not harm the diet and may extend freshness. Use within 1 year of bag manufacturing or "Best if Used By" date.
