Total Microorganisms not less than.....	270,000 CFU/g (Lactobacillus acidophilus, Lactobacillus casei, Bifidobacterium thermophilum, Enterococcus faecium*)		

*Contains a source of live (viable) naturally occurring microorganisms.

Ingredients

Dehydrated Alfalfa Meal, Dehulled Soybean Meal, Wheat Middlings, Ground Timothy Hay, Ground Soybean Hulls, Ground Oats, Dried Plain Beet Pulp, Ground Flaxseed, Cane Molasses, Dicalcium Phosphate, Wheat Germ, Soybean Oil, Dried Whey, Salt, Calcium Carbonate, DL-Methionine, Dried Lactobacillus acidophilus Fermentation Product, Dried Lactobacillus casei Fermentation Product, Choline Chloride, Dried Bifidobacterium thermophilum Fermentation Product, Pyridoxine Hydrochloride, Dried Enterococcus faecium Fermentation Product, Folic Acid, d-Alpha Tocopheryl Acetate (Vitamin E), L-Ascorbyl-2-Polyphosphate (Vitamin C), Vitamin A Acetate, Magnesium Oxide, Cholecalciferol (Vitamin D3), Manganous Oxide, Zinc Oxide, Calcium Pantothenate, Ferrous Carbonate, Copper Sulfate, Nicotinic Acid, Vitamin B12 Supplement, Riboflavin-5-Phosphate, Zinc Sulfate, Calcium Iodate, Sodium Selenite, Cobalt Carbonate.

Feeding Directions

- Adult chinchillas eat approximately 20 grams (2 tablespoons) of pellets per day with an unlimited amount of good quality grass or hay.
- Juveniles and lactating females should have unlimited pellets per day.
- Supplemental vegetables and fruits are not required in the diet, but if offered, should be limited to less than 10% of the total diet and treats offered at less than 2% of the total diet.
- Always provide plenty of fresh, clean water.
- Thoroughly wash feed and water bowls on a regular basis. It is always good practice to wash hands thoroughly after feeding and/or handling animals.
- This diet is not for human consumption.

Storage Conditions

For best results, reseal the bag between uses or store contents of open paper sack in container with sealing lid. Store in a cool (75°F/24°C or colder), dry (approximately 50% RH) location free from rodents and insects. Do not offer moldy or insect-infested feed to animals as it may result in illness, performance loss or death. Freezing will not harm the diet and may extend freshness. Use within 1 year of bag manufacturing or "Best if Used By" date.
