

## Lorikeet Diet

Mazuri® Lorikeet Diet is a complete diet for most nectarivorous and pollen-eating avian species such as lorikeets and lories. This diet is shipped as a powder that is designed to be combined with water prior to feeding.

---

### Features and Benefits

- **Enriched with essential nutrients.**
- **Low iron formula** – Ideal for iron-sensitive species.
- **Designed to promote hydration** – Stays in solution, no separation of diet components.
- **Contains ingredients found in wild-type diets** – Including pollen.
- **pH stabilized to help reduce microbial and fungal growth.**
- **Easy to mix.**

---

### Product Form & Packaging

Dry Powder

- **Catalog #1814455** | Order by the kg
- **Catalog #1814455-737** | 25 kg net weight poly bag

---

### Guaranteed Analysis (dry powder)

Crude protein not less than.....	13.00%	Moisture not more than.....	10.00%
Crude fat not less than .....	5.00%	Ash not more than .....	8.00%
Crude fiber not more than .....	4.00%	Sodium not more than .....	0.51%

---

### Ingredients

Soy Protein Concentrate, Sucrose, Fructose, Dextrose, Rice Flour, Corn Starch, Ground Corn, Dicalcium Phosphate, Wheat Red Dog, Carrot Powder, Blueberry Powder, Soybean Oil, Microcrystalline Cellulose, Dried Egg Product, Ground Flaxseed, Brewers Dried Yeast, Bee Pollen, Potassium Sulfate, Xanthan Gum, Papaya, Calcium Propionate (a Preservative), Corn Oil, Potassium Sorbate (a Preservative), Choline Chloride, DL-Methionine, Salt, Sodium Bicarbonate, L-Lysine, Tagetes (Aztec Marigold) Extract (Color), Spirulina Algae Meal, Manganese Amino Acid Complex, Zinc Amino Acid Complex, Preserved with Mixed Tocopherols, Ferrous Sulfate, Citric Acid (a Preservative), Calcium Carbonate, Copper Amino Acid Complex, D-Alpha Tocopheryl Acetate (Vitamin E), Ground Corn Cob, Nicotinic Acid, Dried Lactobacillus acidophilus Fermentation Product, Calcium Pantothenate, Dried Lactobacillus casei Fermentation Product, Dried Bifidobacterium thermophilum Fermentation Product, Dried Enterococcus faecium Fermentation Product, Menadione Sodium Bisulfite Complex (Vitamin K), Pyridoxine Hydrochloride, Thiamine Mononitrate, Riboflavin Supplement, Beta Carotene, Folic Acid, Cobalt Chloride, Rosemary Extract, Canthaxanthin (color), Vitamin A Acetate, Calcium Iodate, Biotin, Sodium Selenite, Vitamin B12 Supplement, Cholecalciferol (Vitamin D3).

---

### Feeding Directions

NEVER FEED DRY PRODUCT.

- Combine, by weight, 80% room temperature water and 20% Mazuri® powder. Adjust ratios to desired texture and need. Mix thoroughly with a fork or whisk until fully mixed.
  - Do not use hot or boiling water.
  - Do not microwave mixed product.
  - Measuring of powder by weight is recommended.
- Mixed nectar may be offered for up to 12 hours. In very humid environments, it is recommended that feed bowls be changed more frequently.
- Always provide plenty of fresh, clean water. Thoroughly wash feed and water bowls on a regular basis. It is always good practice to wash hands thoroughly after feeding and/or handling animals.
- This diet is not for human consumption.

---

### Storage Conditions

Mazuri® Diets have a 1-year shelf life in the dry powder form when stored in a dry environment. For best results, tightly affix lid on canister after removal of desired dosage or store contents of open bags in container with sealing lid. Store in a cool (75°F/24°C or colder), dry (approximately 50% RH) location free from rodents and insects. Do not feed moldy or insect-infested feed to animals as it may cause illness, performance loss or death. Freezing will not harm the diet and may extend freshness. Use within 1 year of bag manufacturing or "Best if Used By" date.
