

Timothy-Based Guinea Pig Diet

Mazuri® Timothy-Based Guinea Pig Diet is a complete diet formulated to meet the nutritional requirements of guinea pigs during all life stages.

Features and Benefits

- **Timothy hay-based pellet** – Lower protein and better mineral balance than alfalfa.
- **Higher fiber** – To help support chewing activity and a healthy digestive system.
- **Contains stabilized vitamin C** – Remains active longer than traditional vitamin C.
- **No artificial colors or flavors.**

Product Form & Packaging

Pellet | 5/32" x 1/2"

- **Catalog #3002737-245** | 5 lb. (2.26 kg) net weight resealable poly bag
- **Catalog #0001444** | 25 lb. (11.33 kg) net weight poly woven bag
- **Catalog #3002737-246** | Case: 6 x 5 lb. resealable poly bags

Guaranteed Analysis

Crude protein not less than.....	18.00%	Moisture not more than.....	12.00%
Crude fat not less than.....	4.00%	Ash not more than	8.90%
Crude fiber not less than.....	14.00%	Ascorbic acid not less than.....	1000 mg/kg
Crude fiber not more than	18.00%		
Total microorganisms not less than.....			270,000 CFU/g

(Lactobacillus acidophilus, Lactobacillus casei, Bifidobacterium thermophilum)*

*Contains a source of live (viable) naturally occurring microorganisms.

Ingredients

Ground Timothy Hay, Dehulled Soybean Meal, Wheat Middlings, Ground Soybean Hulls, Ground Oats, Ground Flaxseed, Cane Molasses, Calcium Carbonate, Soybean Oil, Salt, Dicalcium Phosphate, L-Ascorbyl-2-Polyphosphate (Vitamin C), Magnesium Oxide, Ground Wheat, Choline Chloride, DL-Methionine, Dried Lactobacillus acidophilus Fermentation Product, Dried Lactobacillus casei Fermentation Product, Dried Bifidobacterium thermophilum Fermentation Product, Vitamin A Acetate, Dried Enterococcus faecium Fermentation Product, Menadione Sodium Bisulfite Complex (Vitamin K), Cholecalciferol (Vitamin D3), Yucca schidigera Extract, Folic Acid, Pyridoxine Hydrochloride, Calcium Pantothenate, d-Alpha Tocopheryl Acetate (Vitamin E), Manganous Oxide, Zinc Oxide, Riboflavin-5-Phosphate, Ferrous Carbonate, Thiamine Mononitrate, Vitamin B12 Supplement, Nicotinic Acid (Niacin), Copper Sulfate, Cobalt Carbonate, Zinc Sulfate, Calcium Iodate, Sodium Selenite.

Feeding Directions

- Feed free choice to guinea pigs, along with plenty of fresh, clean water. Supplemental food items may be provided but should not make up more than 20% of the total diet.
- Care should be taken to choose appropriate supplemental food items. Mature guinea pigs may benefit from higher fiber, lower protein food items (e.g., grass hay), while growing, gestating, or lactating guinea pigs may benefit from higher protein food items (e.g., alfalfa hay). Guinea pigs may be provided vegetables (predominantly dark leafy greens) and limited fruit (less than 5% of total intake) to provide enrichment.
- Thoroughly wash feed and water bowls on a regular basis. It is always good practice to wash hands thoroughly after feeding and/or handling animals.
- This diet is not for human consumption.

Storage Conditions

For best results, reseal the bag between uses or store contents of open paper sack in container with sealing lid. Store in a cool (75°F/24°C or colder), dry (approximately 50% RH) location free from rodents and insects. Do not offer moldy or insect-infested feed to animals as it may result in illness, performance loss or death. Freezing will not harm the diet and may extend freshness. Use within 1 year of bag manufacturing or "Best if Used By" date.
