Feeding Directions

- Use free choice and replenish every 3 – 5 days, or top dress over a professionally manufactured feed.
 - For adult alpacas, feed at a rate of 0.5 ounces per head per day.
 - For llamas, feed at a rate of 0.15 ounces per 100 lbs. body weight per day.
- When first introduced, it often takes 7-10 days for the animal to enjoy the taste.
- Consumption will vary with animal's use, weather conditions, and quality of available forage and feed.
- Always provide plenty of fresh, clean water.
- Thoroughly wash feed and water bowls on a regular basis. It is always good practice to wash hands thoroughly after feeding and/or handling animals.
- This diet is not for human consumption.

WARNING: DO NOT FEED TO SHEEP DUE TO HIGH LEVELS OF SUPPLEMENTAL COPPER.

CAUTION: FOLLOW LABEL DIRECTIONS: THE ADDITION TO FEEDS OF HIGHER LEVELS OF THIS PREMIX CONTAINING SELENIUM IS NOT PERMITTED. FEEDING ADDED SELENIUM AT LEVELS IN EXCESS OF 0.7 MG PER HEAD PER DAY IN TOTAL DIET IS PROHIBITED.

Storage Conditions

For best results, reseal the bag between uses or store contents of open paper sack in container with sealing lid. Store in a cool (75°F/24°C or colder), dry (approximately 50% RH) location free from rodents and insects. Do not offer moldy or insect-infested feed to animals as it may result in illness, performance loss or death. Freezing will not harm the diet and may extend freshness. Use within 1 year of bag manufacturing or "Best if Used By" date.
