

Electrolyte

Mazuri® Electrolyte is an electrolyte replacement and nutritional supplement to support hydration in small mammals such as rodents, rabbits, guinea pigs, hedgehogs, ferrets, and other small mammals.

Features and Benefits

- **Maintains hydration and electrolyte balance during times of stress** – Such as weaning, illness, diarrhea, pre- and post-surgery, and transportation.
- **Contains glycine and citric acid** – For optimal absorption of water and electrolytes.
- **Easy to mix** – Dissolves rapidly and stays in solution.
- **Provides quick energy** – Contains sugar as an energy source to support electrolyte solution intake.

Product Form & Packaging

Dry Powder

- **Catalog #1819300-717** | 1 kg net weight canister
- **Catalog #1819300-747** | Case: 4 x 1 kg net weight canisters

Guaranteed Analysis (Dry Powder)

Moisture not more than	5.00%	Salt not less than.....	13.0%
Phosphorus not less than.....	0.70%	Sugar not less than	65.0%
Potassium not less than	2.00%	Glycine not less than.....	8.00%
Sodium not more than	5.30%		

Ingredients

Sugar, Salt, Glycine, Citric Acid, Potassium Citrate, Monopotassium Phosphate.

Feeding Directions

- Mix one scoop (1 tablespoon, ~15 g) of electrolyte powder into 8 ounces (240 ml) of water and stir to dissolve completely.
- Leave water bottle in enclosure for no longer than 12 hours, then replace with a fresh solution as needed.
 - Thoroughly clean water bottle after use.
- Always provide animals with a non-supplemented (water-only) drinking option and plenty of fresh, clean water.
- Monitor animal health closely. In case of serious dehydration or to evaluate your animal's specific needs, please contact your veterinarian.
- Thoroughly wash feed and water bowls on a regular basis. It is always good practice to wash hands thoroughly after feeding and/or handling animals.
- This diet is not for human consumption.

Storage Conditions

For best results, reseal between uses. Ensure canister lid is fully closed between uses and keep free from moisture to prevent clumping. Store in a cool (75°F/24°C or colder), dry (approximately 50% RH) location free from rodents and insects. Do not offer moldy or insect-infested feed to animals as it may result in illness, performance loss or death. Use within "Best if Used By" date.
