

Earthworm Diet

Mazuri® Earthworm Diet is designed to be the sole diet for breeding and growing earthworms.

Product Form & Packaging

Catalog #3003950-103 | Meal | 25 lb. (11.33 kg) net weight paper w/poly bag

Guaranteed Analysis

Crude protein not less than	12.00%	Moisture not more than	15.00%
Crude fat not less than.....	2.50%	Ash not more than	8.00%
Crude fiber not more than.....	14.50%		

Ingredients

Ground Corn, Wheat Middlings, Ground Soybean Hulls, Dehydrated Alfalfa Meal, Cane Molasses, Dehulled Soybean Meal, Ground Wheat, Calcium Carbonate, Porcine Meat and Bone Meal, Fish Meal, Ground Oats, Wheat Germ, Brewers Dried Yeast, Dried Beet Pulp, Corn Gluten Meal, Porcine Animal Fat Preserved with BHA and Citric Acid, Soybean Oil, Dicalcium Phosphate, Dried Whey, Salt, Sucrose, Choline Chloride, Folic Acid, Vitamin A Acetate, DL-Alpha Tocopheryl Acetate (Form of Vitamin E), Vitamin B-12 Supplement, Calcium Pantothenate, Menadione Sodium Bisulfite Complex (source of Vitamin K), Nicotinic Acid, Pyridoxine Hydrochloride, Riboflavin Supplement, Manganous Oxide, Zinc Oxide, Ferrous Carbonate, Copper Sulfate, Zinc Sulfate, Calcium Iodate, Cobalt Carbonate.

Feeding Directions

- Feed earthworms daily or adjust to management program.
 - Sprinkle feed and water lightly over earthworm bed and adjust the amount of feed to what the worms will consume daily, which will depend on the number of worms present.
 - Ensure to add new feed when approximately 80% is consumed.
 - If composted organics are used for bedding, decrease the feeding rate.
 - Do not overfeed, which may lead to sour, moldy bedding.
 - For best results, maintain worm beds in a dark location.
 - It is always good practice to wash hands thoroughly after feeding and/or handling animals.
 - This diet is not for human consumption.
-

Storage Conditions

For best results, reseal the bag between uses or store contents of open paper sack in container with sealing lid. Store in a cool (75°F/24°C or colder), dry (approximately 50% RH) location free from rodents and insects. Do not offer moldy or insect-infested feed to animals as it may result in illness, performance loss or death. Freezing will not harm the diet and may extend freshness. Use within 1 year of bag manufacturing or "Best if Used By" date.
