Vitamin K not less than	1.1 mg	Folic Acid not less than	2.5 mg
Thiamine not less than	300 mg	Biotin not less than	0.2 mg
Riboflavin not less than	5.0 mg	Ascorbic Acid not less than	125 mg
Pantothenic Acid not less than	10 mg		

Ingredients

Thiamine Mononitrate, DL-Alpha Tocopheryl Acetate (Vitamin E), Dextrose, Ascorbic Acid (Vitamin C), Calcium Pantothenate, Riboflavin Supplement, Shellac, Diacetylated Monoglyceride, Pyridoxine Hydrochloride, Maltodextrin, Magnesium Stearate, Silicon Dioxide, Nicotinic Acid, Corn Oil, Folic Acid, Menadione Sodium Bisulfite Complex (Vitamin K), Biotin.

Feeding Directions

- Feed by placing the tablet into the food (fish or shellfish). This tablet is designed to be fed with whole fish.
 - Feed within 12 hours.
- Supplement according to body weight of the marine mammal:

Body weight	Tablets/day	Common examples in weight ranges*
0-150 kg	1	Juvenile seals & sea lions, female fur seals, California sea lions, harbor seals
150-300 kg	2	Bottlenose dolphins, grey seals, male fur seals, male California sea lions, female Stellar sea lion
300-500 kg	3	Juvenile walruses, male Stellar sea lions
500-1,000 kg	4	Beluga whales, intact male Stellar sea lions, female walruses
1,000-1,500 kg	5	Male walruses
1,500-2,200 kg	6	Orcas

*Juveniles will change in weight over time and adult weight may vary with environment, life stage, and management. Tablet dosing should be adjusted accordingly.

- Always provide plenty of fresh, clean water.
- Thoroughly wash feed and water bowls on a regular basis. It is always good practice to wash hands thoroughly after feeding and/or handling animals.
- This supplement is not for human consumption.

Storage Conditions

Keep lip tightly closed after removing required amount. Store in a cool (75°F/24°C or colder), dry (approximately 50% RH) location free from rodents and insects. Use within 1 year of bag manufacturing or "Best if Used By" date.

Ingredients cause tablets to have a speckled appearance. Coating on tablets may become speckled with exposure to air – this is not indicative of any vitamin degradation.
