

## Wild Carnivore® Bear – Maintenance Diet

Mazuri® Wild Carnivore® Bear – Maintenance Diet is an extruded diet containing high levels of animal products designed specifically for bears. This diet can be used year-round or may be used on a seasonal basis, rotated with Mazuri® Wild Carnivore® Bear Plus Diet.

### Features and Benefits

- **Contains high-quality protein from multiple meat meal sources.**
- **With ground oats** – May slow digestion for fullness.
- **Contains multiple soluble and insoluble fiber sources.**
- **Contains probiotics** – Supports GI tract health.
- **Contains chelated, organic trace minerals** – For enhanced mineral absorption.
- **Provides long-chain omega-3 fatty acids** – From fish oil and flaxseed.
- **No corn, wheat, or soy in formulation.**
- **Contains:**
  - Natural sources of glucosamine and chondroitin from fish and chicken meal.
  - Natural source of vitamin E.
- **Extruded feed** – Optimizes digestibility of the diet.

### Product Form & Packaging

Catalog #3003940-705 | Extruded Particle | 5/8" x 1" | 40 lb. (18.14 kg) net weight paper w/poly bag

### Guaranteed Analysis

Crude protein not less than.....	28.00%	Calcium not less than .....	1.75%
Crude fat not less than .....	10.00%	Calcium not more than .....	2.25%

### Ingredients

Chicken Meal, Porcine Meat and Bone Meal, Ground Oats, Ground Timothy Hay, Feeding Oat Meal, Rice Flour, Dried Plain Beet Pulp, Ground Flaxseed, Porcine Animal Fat Preserved with BHA and Citric Acid, Cellulose, Fish Meal, Fish Oil, Carrot Powder, Dried Apple Pomace, Taurine, Preserved with Mixed Tocopherols, DL-Methionine, Pyridoxine Hydrochloride, Dried Lactobacillus acidophilus Fermentation Product, Choline Chloride, Dried Lactobacillus casei Fermentation Product, Dried Bifidobacterium thermophilum Fermentation Product, Citric Acid (a Preservative), Dried Enterococcus faecium Fermentation Product, Calcium Pantothenate, d-Alpha Tocopheryl Acetate (Vitamin E), Zinc Oxide, Vitamin A Acetate, Salt, Cholecalciferol (Vitamin D3), Thiamine Mononitrate, Nicotinic Acid, Manganous Oxide, Menadione Sodium Bisulfite Complex (Vitamin K), Riboflavin Supplement, Calcium Carbonate, Rosemary Extract, Ferrous Carbonate, Vitamin B12 Supplement, Folic Acid, Beta Carotene, Copper Sulfate, Zinc Sulfate, Zinc Amino Acid Complex, Manganese Amino Acid Complex, Calcium Iodate, Copper Amino Acid Complex, Cobalt Glucoheptonate, Sodium Selenite, Cobalt Carbonate, Biotin.

### Feeding Directions

- This diet is formulated to be fed as the sole diet.
- The amount of diet the animals require will vary according to the size, age, life stage, health status, and activity of the animal and the environmental temperature.
  - As a guide, animals can be fed approximately 400 g (~14 oz) per 100 pounds of animal body weight, daily.
  - Adjust as necessary to maintain desired weight and body condition.
  - Note: one cup of Mazuri® Wild Carnivore® Bear – Maintenance Diet weighs approximately 70 grams.
- Always provide plenty of fresh, clean water.
- Thoroughly wash feed and water bowls on a regular basis. It is always good practice to wash hands thoroughly after feeding and/or handling animals.
- This diet is not for human consumption.

### Storage Conditions

For best results, reseal the bag between uses or store contents of open paper sack in container with sealing lid. Store in a cool (75°F/24°C or colder), dry (approximately 50% RH) location free from rodents and insects. Do not offer moldy or insect-infested feed to animals as it may result in illness, performance loss or death. Freezing will not harm the diet and may extend freshness. Use within 1 year of bag manufacturing or "Best if Used By" date.
